As requested, Mr. Shufelt gave the board a diagram showing the dimensions of the property along with the location of the burial site. The board requested that Mr. Shufelt add the location of the existing buildings and include the distances from the new property lines to show whether the new setbacks will abide by the zoning regulations.

Motion made by Jim Andrews and seconded by Chris Keefe to accept the application contingent on Mr. Shufelt providing the secretary with the new diagram prior to September 21st, so there is adequate time to advertise the public hearing for October 10, 2018. All in favor.

Motion by Koethi Zan to correct the August minutes as follows: Motion should read: "Motion made.....the 12 foot variance for a setback." Seconded by Jim Andrews. All in favor.

There being no further business motion to adjourn was made by James Andrews and seconded by Koethi Zan at 7:30 pm. All in favor.

Respectfully submitted
